¹ Cases involving days away from work, restricted work activity, or job transfer (DART) are the sum of cases involving days away from work (DAFW) and cases with restricted work activity or job transfer (DJTR).

² Days-away-from-work cases include those that resulted in days away from work, some of which also included job transfer or restriction.

³ Includes cases involving only days of job transfer or restriction.

⁴ In January of 2015, the original six industries selected for the days-of-job-transfer-or-restriction (DJTR) study were replaced with a new set of six industries. The original six 3-digit industries included: Specialty trade contractors; Food manufacturing; Building material and garden equipment supplies dealers; Air transportation; Warehousing and storage; and Nursing and residential care facilities.

⁵ Information is not shown separately for injured workers under age 14; they accounted for less than or equal to 50 cases.

⁶ Race and ethnicity data do not add to total. Some cases may be counted as both multi-race and Hispanic and other race.

⁷ *Standard Occupational Classification Manual*, 2010, Office of Management and Budget.

Note: Dash indicates data do not meet publication guidelines. Because of rounding and data exclusion of nonclassifiable responses, data may not sum to the totals.
