

BLS periodic table of science, technology, engineering and mathematics (STEM) occupations

The periodic table of chemical elements, created by Dmitry Mendeleev in 1869, is one of the most important achievements in modern science. To celebrate this achievement, BLS has created our own periodic table! Instead of elements, we have used Science, Technology, Engineering and Math (STEM) occupations. Workers in STEM occupations use science and mathematics to understand how the world works and to solve problems.

STEM GROUP

- Chemistry
- Geosciences
- Computer Science
- Life Sciences
- Engineering
- Mathematics
- Environmental Science
- Physics/Astronomy

Typical education needed for entry

Employment change, projected 2020-30

Median annual wage, 2020
