Pacific	0.0	0.7	0.0	0.0	1.1

¹ Normal retirement occurs when the specific age, length of service, or combination of age and length of service plan requirements are satisfied and the participant may retire and receive all accrued benefits without a reduction or penalty. In most plans, participants must satisfy a minimum service requirement to be vested in the plan. Typical vesting requirements are 5 years of service; these requirements are not included in the service requirements for normal retirement.

² Surveyed occupations are classified into wage categories based on the average wage for the occupation, which may include workers with earnings both above and below the threshold. The categories were formed using percentile estimates generated using data from the National Compensation Survey publication, "Employer Costs for Employee Compensation - March 2016."

Note: For definitions of major plans, key provisions, and related terms, see the "Glossary of Employee Benefit Terms" at www.bls.gov/ncs/ebs/glossary20162017.htm.
