## TECHNICAL NOTE

The Employment Cost Index (ECI) measures the change in the cost of labor, free from the influence of employment shifts among occupations and industries. For information on survey concepts, coverage, methods, nonresponse adjustment, and imputation see *National Compensation Measures Handbook of Methods* at [www.bls.gov/opub/hom/ncs/home.htm](http://www.bls.gov/opub/hom/ncs/home.htm).

### Sample size

Data for the March 2019 reference period were collected from a probability sample of approximately 26,500 occupational observations selected from a sample of about 6,500 private industry establishments and approximately 7,900 occupational observations selected from a sample of about 1,400 state and local government establishments that provided data at the initial interview.

### Standard errors

To assist users in ascertaining the reliability of Employment Cost Index (ECI) series, standard errors of all current quarter not seasonally adjusted 3- and 12-month percent change series are also available, see [www.bls.gov/ncs/ect/ectvar.htm](http://www.bls.gov/ncs/ect/ectvar.htm) and the public data query tools at [www.bls.gov/ncs/ect/data.htm](http://www.bls.gov/ncs/ect/data.htm). Standard errors provide users a measure of the precision of an estimate to ensure that it is within an acceptable range for their intended purpose.

### Historical listings

Historical listings are available at [www.bls.gov/ect/#tables](http://www.bls.gov/ect/#tables). The continuous occupational and industry series listing uses the Standard Industrial Classification Manual and Occupational Classification System series from 1975 through 2005 and the North American Industry Classification System and Standard Occupational Classification from 2006 to the present. It provides the official series deemed continuous after the change in classification systems. For more information on the criteria used in defining continuous series, see the article published in the *Monthly Labor Review* at [www.bls.gov/opub/mlr/2006/04/art2full.pdf](http://www.bls.gov/opub/mlr/2006/04/art2full.pdf).

### Employer Costs for Employee Compensation data

The costs per hour worked of compensation components are published as part of the Employer Costs for Employee Compensation news release (ECEC). The ECEC release dates are available at [www.bls.gov/schedule/2019/home.htm](http://www.bls.gov/schedule/2019/home.htm). Historical ECEC data are available in summary documents at [www.bls.gov/ect/#tables](http://www.bls.gov/ect/#tables). Since the ECEC is calculated with current employment weights rather than the fixed weights used in computing the ECI, year-to-year changes in the cost levels usually differ from those in the ECI.

### Fixed Employment Weights

For additional information on the use of fixed employment weights in computing the ECI, see [www.bls.gov/opub/mlr/2016/article/introducing-2012-fixed-employment-weights-for-the-employment-cost-index.htm](http://www.bls.gov/opub/mlr/2016/article/introducing-2012-fixed-employment-weights-for-the-employment-cost-index.htm).
